

DISCOVER THE AWARD-WINNING MOBILE AND REAL-TIME PAYMENT SOLUTION THAT UNITES THE MARKETPLACE.

Introducing VTransact from Mindgate, the dynamic digital overlay service that:

Processes every kind of transaction

Retail payments, payment requests, collections, RTP, et al.

Across all markets

Banks, corporate, merchants, consumers.

On the same platform

Offering mobile payment functionality and real-time payments.

Merchant Management Platform

VTransact's merchant management platform is an end-to-end solution for acquiring banks to manage their merchant-related activities such as onboarding, merchant servicing and 360° reporting. Our brandagnostic platform provides an in-house solution that increases sales and enhances the customer experience. With the ability to sidestep cc rails and traditional POS systems, VTransact can significantly lower transaction fees, making it a great cash alternative for small business.

Corporate Digital Payment Real-Time Platform

Corporate payment platforms already exist -we call them 'online banking.' Where VTransact differentiates is with mobile-native functionality and a real-time processing platform. That means that you can do all your operations through your smartphone, including transactions. And VTransact's optional RTP rail can make all those transactions reconcile in real-time. Convenience and assurance, 24/7/365.

Consumer-Facing Payment Solution

VTransact offers a white label solution that handles mobile and social media payments, enabling consumers to enjoy a branded shopping experience with options for QR payments, self-checkout, instant payment, contactless payments and no required POS equipment. VTransact's RTP capabilities improve cashflow – with drastically lower transaction fees. Mobile-native and real-time ready, VTransact's microservices - based architecture can easily incorporate additional functionality such as inline promotions, offer management solutions, bulk payments and more, truly making it the only payment solution you will ever need.

 @WeAreMindgate

INTRODUCING VTRANSACT FROM MINDGATE. THE UNIVERSAL SOLUTION.

VTransact for Corporates

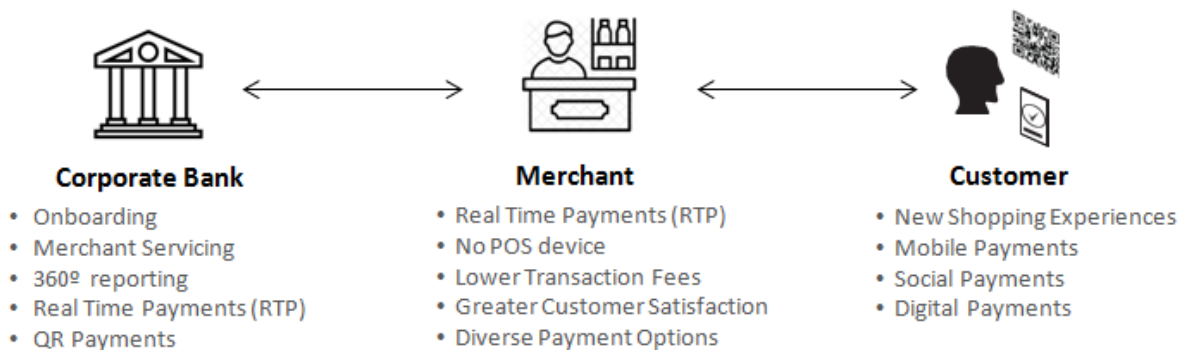

Our Solution:

- Mobile | Digital Payment solutions for Banks serving Corporates
- Mobile | Digital Payment solutions for Banks serving Merchants

We offer hosted cloud-based platform that digitally enables community banks customers to access the banks core services like payments, collections, balance inquiry etc. through mobile, web browser, host to host and API banking.

The proposed solutions support single-store merchant to a multi stores large merchant. In addition, the solution also supports corporates and multinational corporates, thus providing access to the banks services online and face-to-face with self-service capability.
